EDUCATION

B. tech(Computer Science and Engineering) Presidency University

07/2020 - Present

7.24 GPA

Senior School (12th)

St. Joseph's Convent H.S. School

03/2019 - 06/2020

PERSONAL PROJECTS

Weather Forecasting Web App Using ReactJs

- Developed a dynamic and user-friendly weather forecasting web application using ReactJS.
- Implemented a responsive design with HTML, CSS, Bootstrap and ReactJS.
- Leveraged a weather API to provide real-time weather data for any location.

To Do List Web App Using JavaScript

- Designed and implemented a dynamic and user-friendly To-Do List web application using JavaScript.
- The project emphasizes front-end development skills with a well-enhanced design and responsiveness using HTML, CSS and JavaScript.
- The application supports CRUD operations, allowing users to add and delete tasks.
- It serves as a testament to proficiency in creating interactive and functional web applications.

Tic tac toe using Django

- Developed a web-based implementation of the classic two-player Tic Tac Toe board game using Django.
- The project features HTML templates and CSS styles for a visually appealing and user-friendly interface.
- The combination of Django's powerful backend capabilities and the frontend's intuitive design results in a functional and entertaining web application.
- This project highlights skills in full-stack development with an emphasis on backend capabilities.
